Play and Education Center, inc

## NATURE PRESCHOOL

### Our New Nature Preschool is in its Caterpillar Stage!

#### Big Things Are Growing at Our New Center!

We're excited to share the latest progress on our new Nature Preschool! Construction is well underway and we're on track for an August opening.

In addition to our beautiful indoor classrooms and kitchen, we're creating outdoor classrooms that will offer children the chance to learn and play in nature year-round. These spaces are designed to encourage exploration, creativity, and hands-on learning in the fresh air.

#### Why is nature learning important?

Nature learning is incredibly valuable for preschool-aged children —it supports their development in ways that traditional indoor learning environments can't always match. Our mission at APTG is "LESS SCREEN, MORE GREEN!"

#### We are Working Toward our Full-Circle-Butterfly Moment!

We've also been busy planting pollinator gardens, which will soon be buzzing with life. We are carefully tending to the new grass on the hills in our playspace. It's already shaping up to be a magical place for children to run, roll, and grow.
